

The Luxe for Living program offers more than 130 stationary and motion seating silhouettes in a variety of customization options.

Marrying function with customizable style, the program includes sofas, loveseats, swivel chairs and sectionals in a choice of stationary (8 way hand-tied) or motion, along with coordinating recliners, ottomans and a queen sofa sleeper. Each is available in a choice of five arm styles, two leg styles, multiple finish options, optional nail head trim, welt or double-needle stitching options, solid or two-piece back and choice of over 300 covers including any fabric, leather or fabric/leather combination.

The innovative sofa sleeper features a 'next gen' power mechanism that is operated with a Bluetooth-enabled remote. The seat cushions of the sofa double as the foot of the mattress, which eliminates the need to store the cushions before the sleeper unit is opened.
