C E N T U R Y C H A I R

To design our own living space and share it with family and friends is the ultimate personal journey. In choosing the décor for our homes we bring the beauty indoors, joy to our hearts and let others glimpse the colors of our soul.

For more than 65 years, Century Furniture has crafted furniture at the foot of the Appalachian Mountains in North Carolina. We have never wavered from our founder's original ideals: to create furniture of such quality that it brings pride to both the customer and to the craftspeople that make it.

From elegant, traditional dining chairs that fill a grand dining room; to large, transitional storage ottomans that hold every game in the family room; or the stylish, contemporary chair and ottoman for that quiet corner of escape in your bedroom. No matter the style Century Chair has the perfect occasional piece to complete any room.

Infinite possibilities and unlimited attention.
Come and accessorize your living space with Century Chair.

Just think of how many times you have entered a restaurant and asked if booth seating was available. We want cozy, comfortable, elegant yet functional, and the banquette is one of the most versatile pieces of furniture you can own. Create a casual eat-in kitchen corner, a formal dining room with extra seating, or use as extra seating in an entertaining area. With frame, style and size options create the perfect addition to your home with Century's Custom Banquettes.

DRYBRUSHING AND LEAFING See other finish options available at www.centuryfurniture.com.

DRY BRUSHING

A gold or silver paint is made by combining a mixture of gold or silver powder to a clear glaze or gloss lacquer. It is applied by a skilled artisan to recessed areas to accentuate carved detail and mouldings. The brush is dipped in the mixture, then is brushed on an absorbent surface until it is nearly dry. Only then is it applied to furniture. As a result, it is more subtle than leafing.

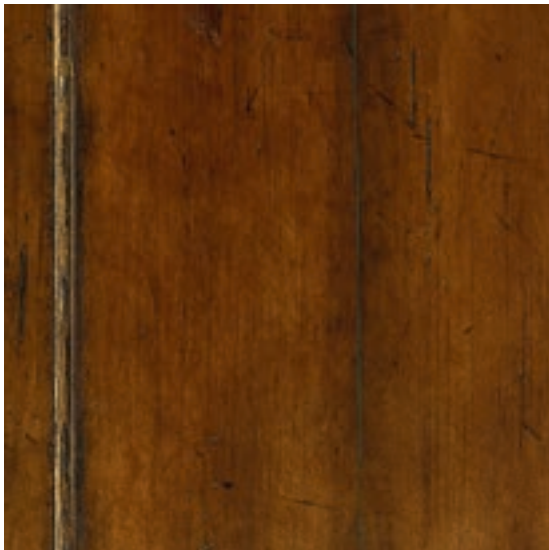

Gold Dry Brushing

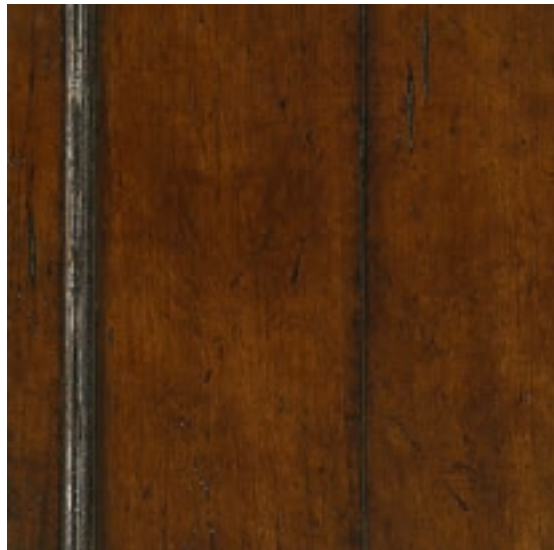

Silver Dry Brushing

LEAFING

Thin foil sheets of faux silver or gold leaf are applied by hand to accent design details such as carving and mouldings. They are then worn through and burnished to a fine patina to simulate aging.
